DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see pages 10-13, filed 5/06/06, with respect to claims 1, 12, and 20 have been fully considered and are persuasive. The rejection of those claims and their respective dependents has been withdrawn.

2. This application is in condition for allowance except for the following formal matters:

Claim Objections

3. Claim 20 is objected to because of the following informalities: There appears to be a typographical error "forwarding data to a selected one" in line 15. It appears that Applicant intended for the claim to recite "forwarding data to the selected one", since only one link is selected in step (c). Appropriate correction is required.

4. Claims 30-35 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Claims 30-35 merely state that data looping in the system is prevented because data is only forwarded to the selected one of the links. Claims 1, 12, and 20, from which claims 30-35 depend, already state that data is forwarded only to the selected link. Therefore, claims 30-35 merely describe a result of performing the method of claims 1

Art Unit: 2153

and 12 or using the device of claim 20. Based on the claim language, data looping will inherently be prevented if the method of claims 1 and 12 is performed or the device of claim 2 is used.

Allowable Subject Matter

5. Claims 1-19,26,27,36 and 37 are allowed.

Conclusion

6. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
